Mr. Wadsworth:

This memo is intended to address my working relationship with Mr. Robert Hill, principle of Robert T. Hill and Associates. I have worked very closely with Bob and find him to be a man of integrity. He is highly knowledgeable, practical and able to work effectively with an assortment of Architects and Engineers. Bob's expertise and ideas has led to the development of innovative construction details and specifications that has improved the quality of the sculpted retaining structures built in our District. I personally recommend Bob with any design or construction project involving sculpting and staining. His work has drawn numerous accolades from the general public and has brought credit to our organization.
