Dear Bob, Sean, Neville and Ty,

We wanted to let you know that we are really enjoying our kitchen. It feels great just being in it. The new features work well together: the deeper counter by the sink; the better location of the oven and microwave; the raised height of the counter; the great lighting and the continuous granite up the backsplash. We appreciate the care taken and are amazed at the efficient speed in completion of the project.

Bob, I do have a new toaster oven!

Thank you also for taking care of our window replacement in our addition. We value your connections to get it done.

Sincerely,

Bob
Nancy
